

2D MLG Post-OEF Reinvestment of Forces

8 MAY 2013

Presentation to the Installations and Logistics
Board
2d MLG G-3

Purpose and Agenda

Purpose

- **Discuss the projected change in focus for CONUS and deployed forces in the Post-OEF environment.**

Agenda

- 2d MLG post-OEF operational design
- 2d MLG post-OEF Concept of Employment Graphic
- 2d MLG Opportunities and Challenges.

Brief type: Informational

UNCLASSIFIED/FOUO

Post-OEF Operational Design

Current Conditions

- The “New Norm”
- DSCA CONUS crisis response efforts.
- TSC focus in MFE, MFA, and MFS.
- Contingency planning.

What are the tasks?

- Home station missions.
- Source, Equip, Sustain ad-hoc TSC and crisis forces.
- Support established contingencies
- Provide and augment MEU CLB's.

What are the Requirements?

- Enduring presence in various regions will likely cause growth in infrastructure, supply, and equipment set to support crisis and TSC events, **2d MLG will have to provide both deployed and reach back sustainment support to sustain II MEF forces.**
- 2d MLG will likely see an increased demand for SME and unit deployments for TSC. **2d MLG's role to enable these events with both manpower and materiel will grow.**

What makes this different?

- Regional expansion in areas that have not had **sustained** Marine presence.
- 2d MLG will be the **tactical CSS** link to MARFORS via regional support mission.

Flexible and immediate shift

Demand for engagement forward will grow while fiscal resources will decline

Post-OFF Concept of Employment

MARFORAF

- SPMAGTF-Crisis Response
- SPMAGTF-Africa (TSC)
- TSC SME and ad-hoc unit support

MARFOREUR

- Black Sea Rotational Force
- Georgia TSC (BOS-I???)

MARSOC:

- General Purpose Force
- CSS integration
- with MSOLB??

MARFORCOM/II MEF

- CONUS sustainment and training
- MEU CLB
- DSCA capabilities lead (afloat and ground-based response)
- Support to contingency planning and training (OPLAN, CONPLAN, etc)

NCLAS

MARCENT

- Periodic TSC and episodic deployment support as directed.
- R4OG (CY-15???)

MARFOR SOUTH

- Enabler support to CD/CNT Missions
- TSC SME and Unit Employment
- HA/DR

Challenges and Opportunities

- Challenges:
 - Funding
 - Ad-hoc non-standard missions requiring task organization that does not map back to a single unit.
 - Determining the right mix of forward support and responsive “call-forward” personnel.
- Opportunities:
 - Shape USMC logistics support infrastructure at enterprise and tactical level.
 - Leverage and operationalize MCPP-N and MPF in MFE, MFA, and MFS.
 - Deployable and responsive employment of GCSS-MC and other LOG AIS.
 - Engage MLG in BPC missions.
 - MARSOC integration with GPF.

Questions/Discussion

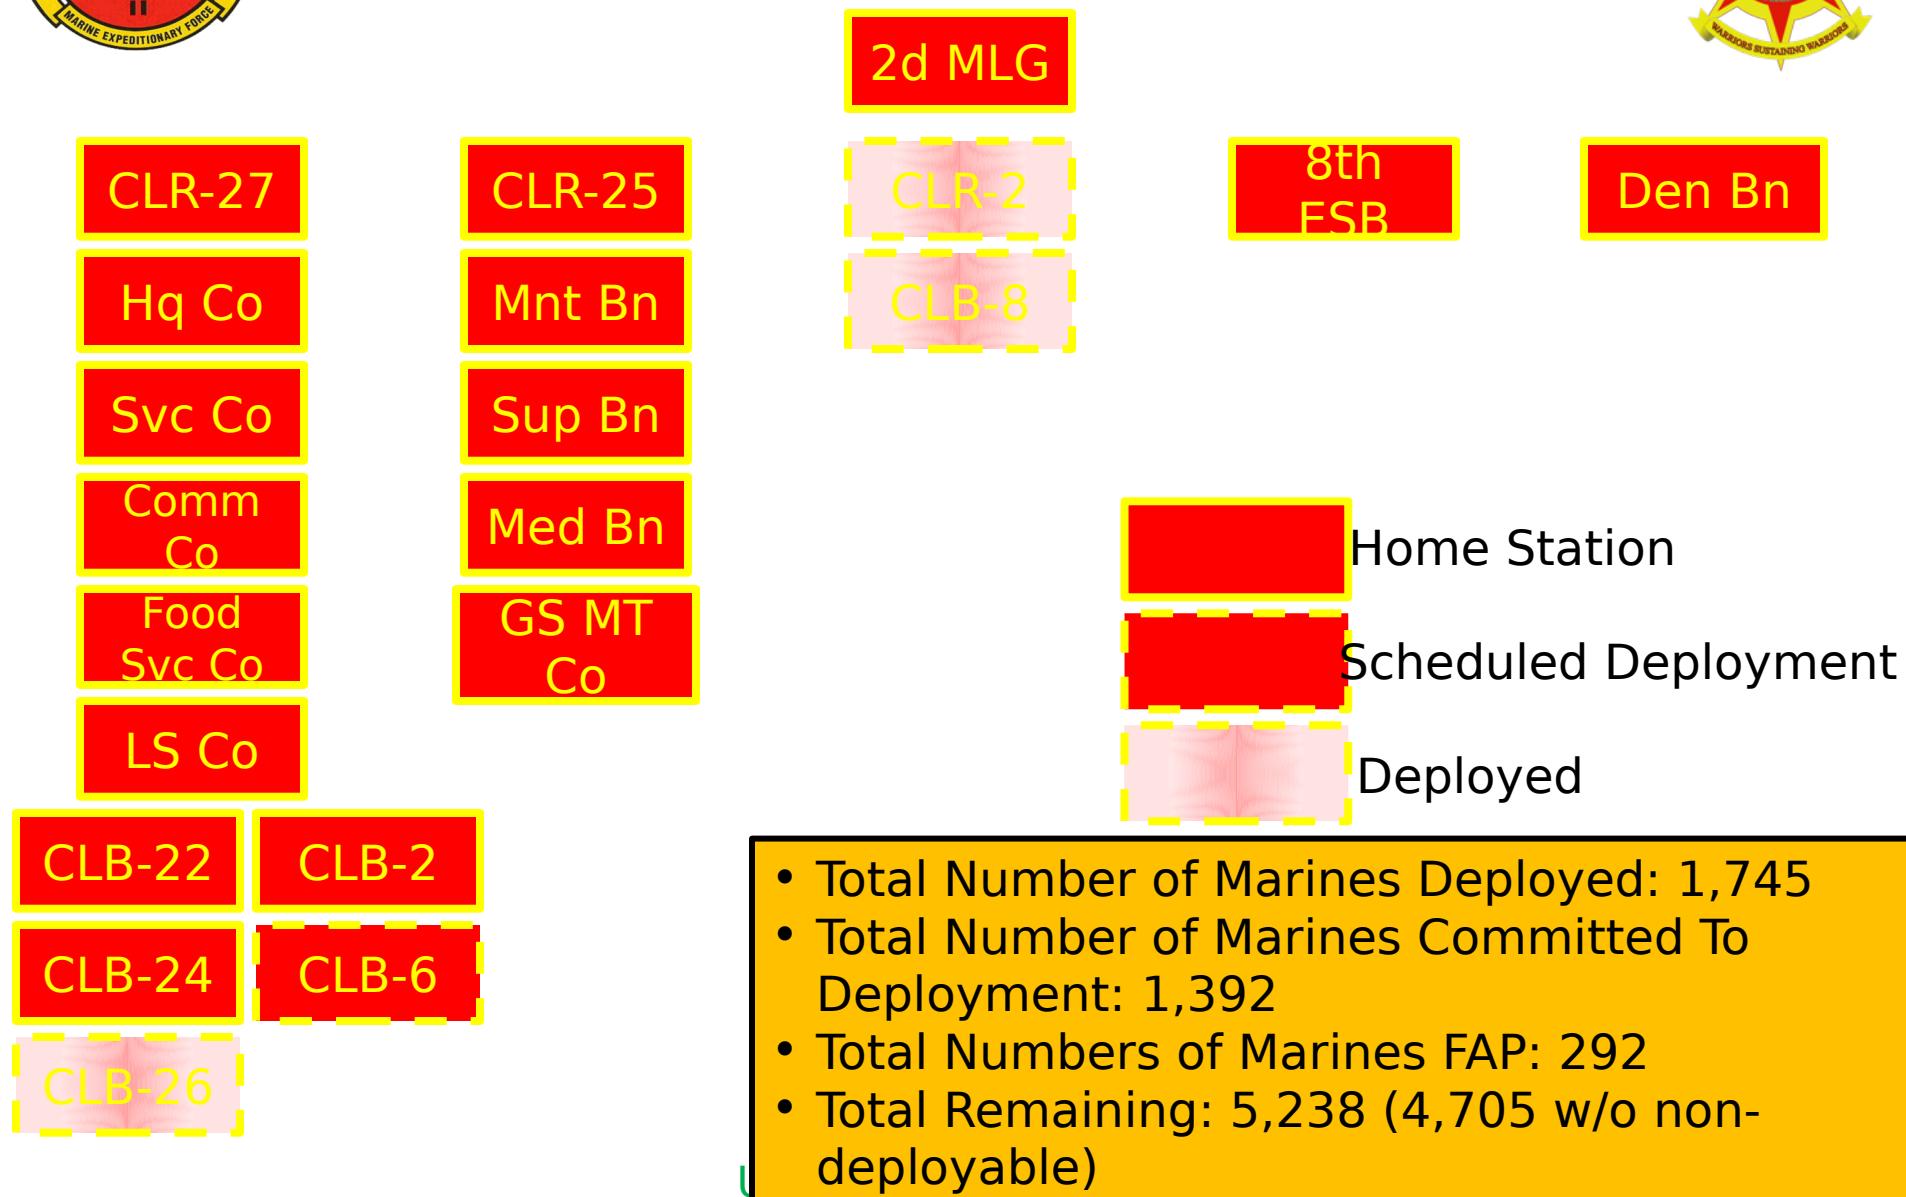

Back-ups

UNCLASSIFIED/FOUO

Current Disposition of 2d MLG

Europe

**Black Sea
Rotational Force:**
Provide LCE of ~60
PAX and possible
FRSS/STP

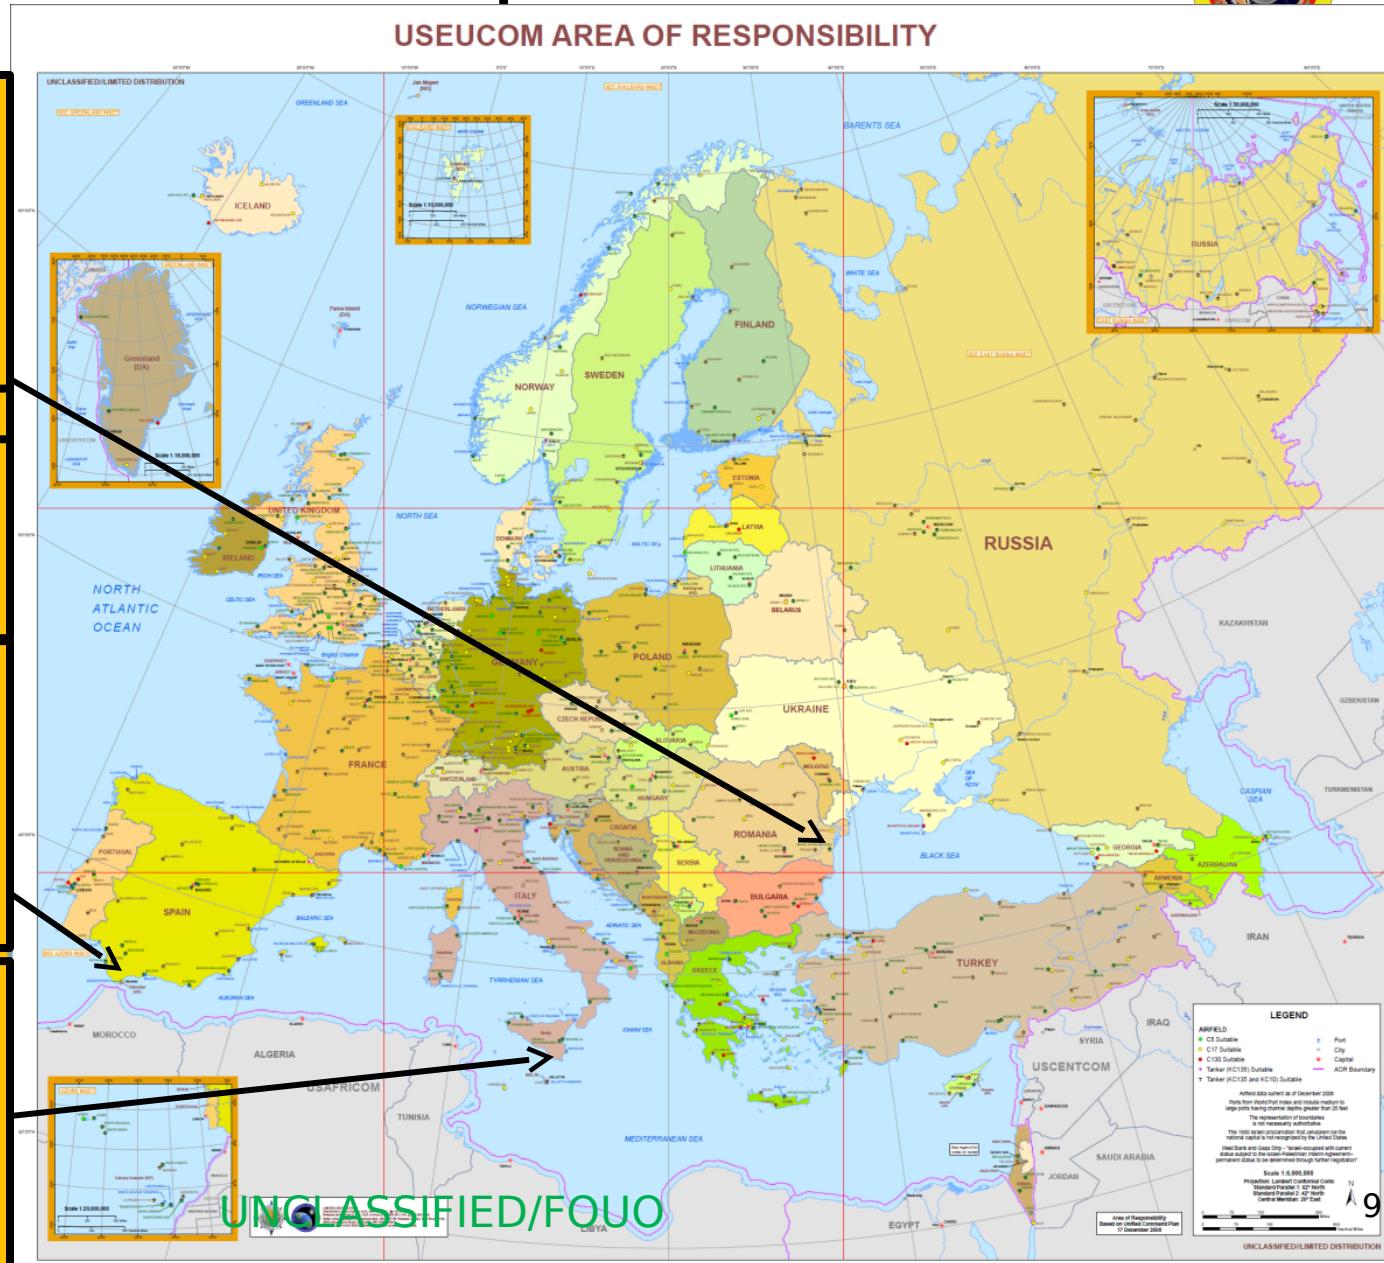

~~Duration: Mar-Sep
Georgian Eng Trng~~

~~~3 PAX~~

~~Duration: 1 week on  
request~~

**SPMAGTF-Crisis  
Response:** Provide  
LCE of ~50 and up  
to ~470 PAX  
Duration: Unknown

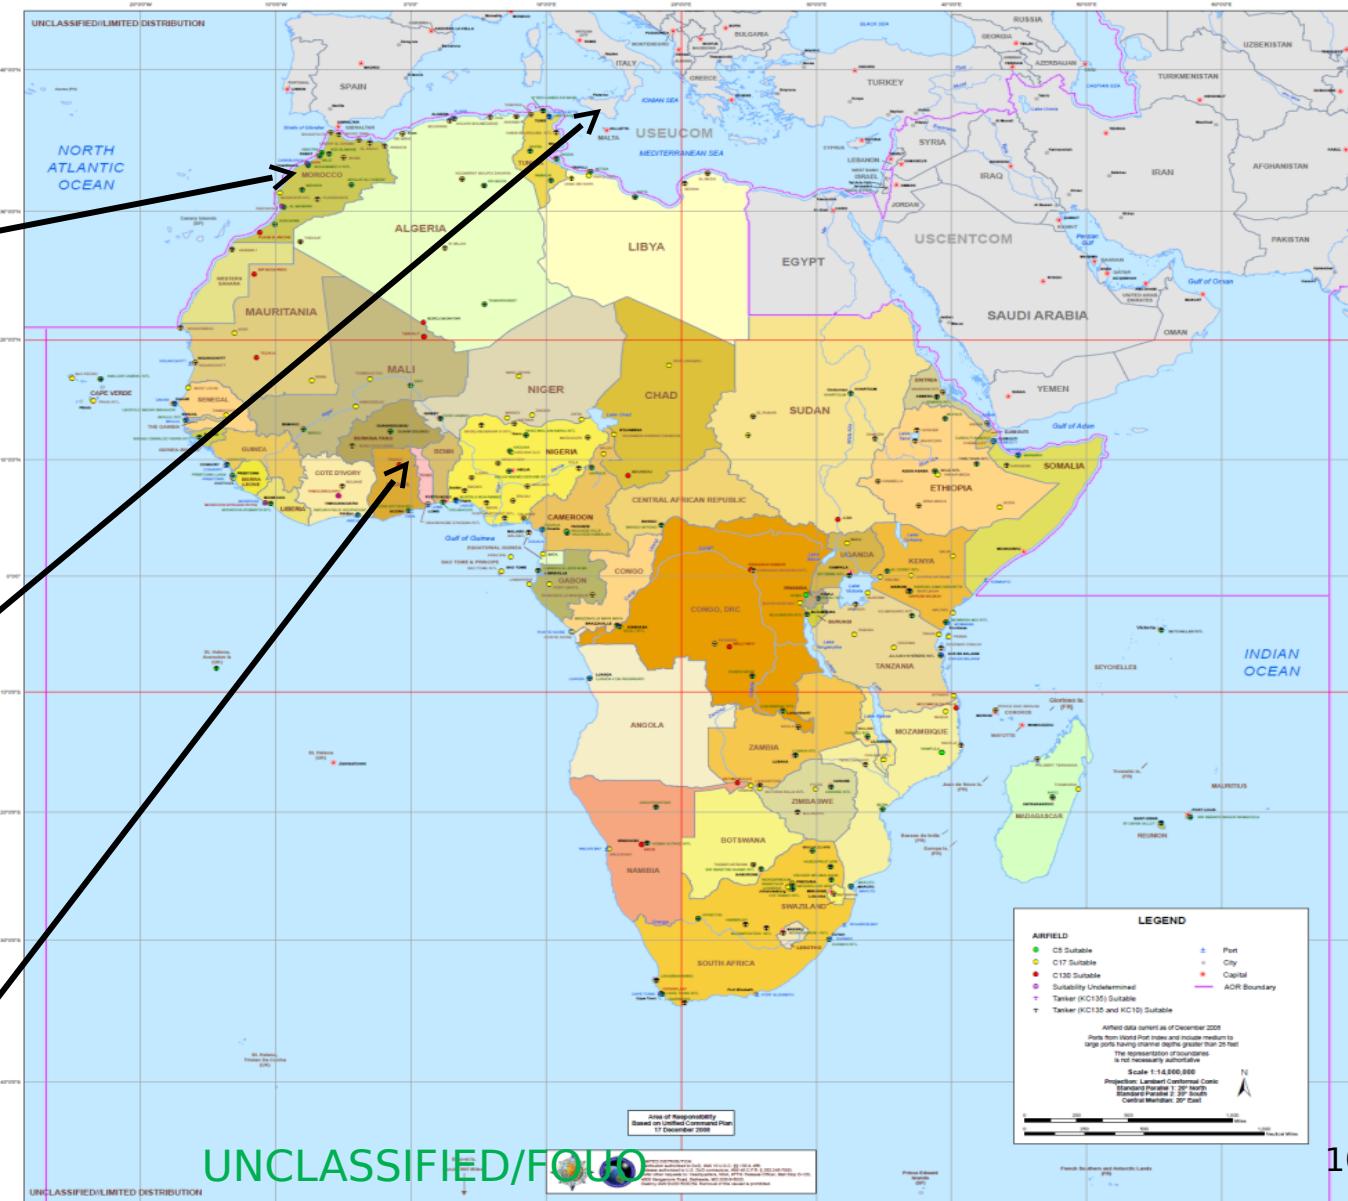

**Regional  
Maintenance and  
Supply Support** ~2  
to 10 PAX as  
requested

# Africa

## USAFRICOM AREA OF RESPONSIBILITY

UNCLASSIFIED//FOUO

African Lion MPF exercise and LCE PAX increase expected Duration: Mar-May

SPMAGTF-Africa PAX: Unknown Duration: 3 x Deployments per annual year calendar

Peacekeeping Logisitics ~1 to 3 PAX Duration: 2 weeks per quarter

# South America & Caribbean

Colombia CD/CNT  
Missions  
PAX: ~3  
Duration: 2 weeks  
at various times

No other missions  
scheduled at this  
time. Changes  
expected as funding  
opportunities occur.  
Contributions  
mainly in the form  
of subject matter  
experts.

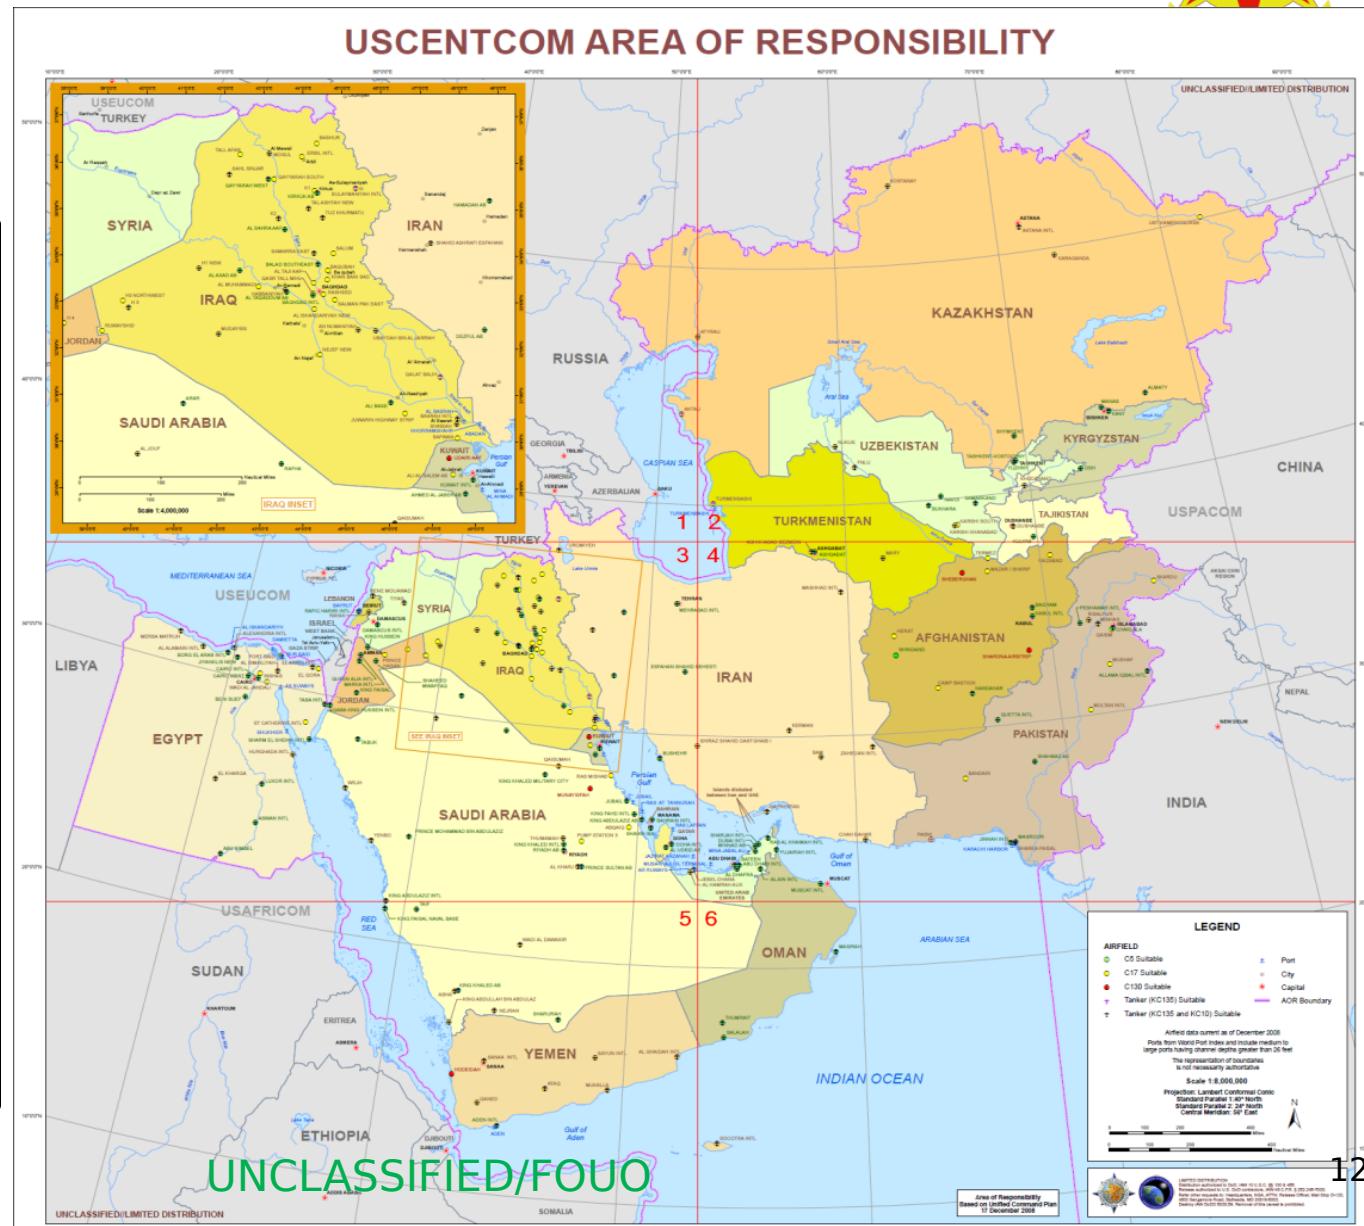

# CENTCOM

No other missions scheduled at this time. Changes expected as funding opportunities occur. Contributions mainly in the form of subject matter experts, and ad-hoc unit support similar to MAG-40 augmentation and other high priority Theater shaping requirements.

# 2d Marine Logistics Group:

WHAT DS LOGISTICS CAPABILITY CAN 2D MLG PROVIDE TO MARSOC:

## MARSOC Logistics Structure

**MARSOC does not require DS Logistics Capability from 2<sup>nd</sup> MLG**

- MARSOC Total Force growth plan will meet known unit requirements.
- Current shortfalls are for individual billets, not unit capabilities.
- 180 CSS Billet shortfall spread across 10 HQs (Battalion to MARSOC-level)
- USSOCOM funds 101 CLS personnel to free uniformed personnel to deploy
- T/O growth synchronized with MILCON plan

## MARSOC Shortfalls:

- Staff Support to fill current T/O delta
  - High-Demand/Low density rank and MOSs
  - MARSOC took from staff billets to fill holes in its tactical structure: Tactical CSS on track for FY16 FOC
- Logistics Inspection Support
  - Need SME support and depth to enhance their Logistics Readiness Evaluation Program
- 88 PAX RFF approved at PP&O for next SOTF deployment
  - 44 CSS billets
  - Camp Pendleton based HQs

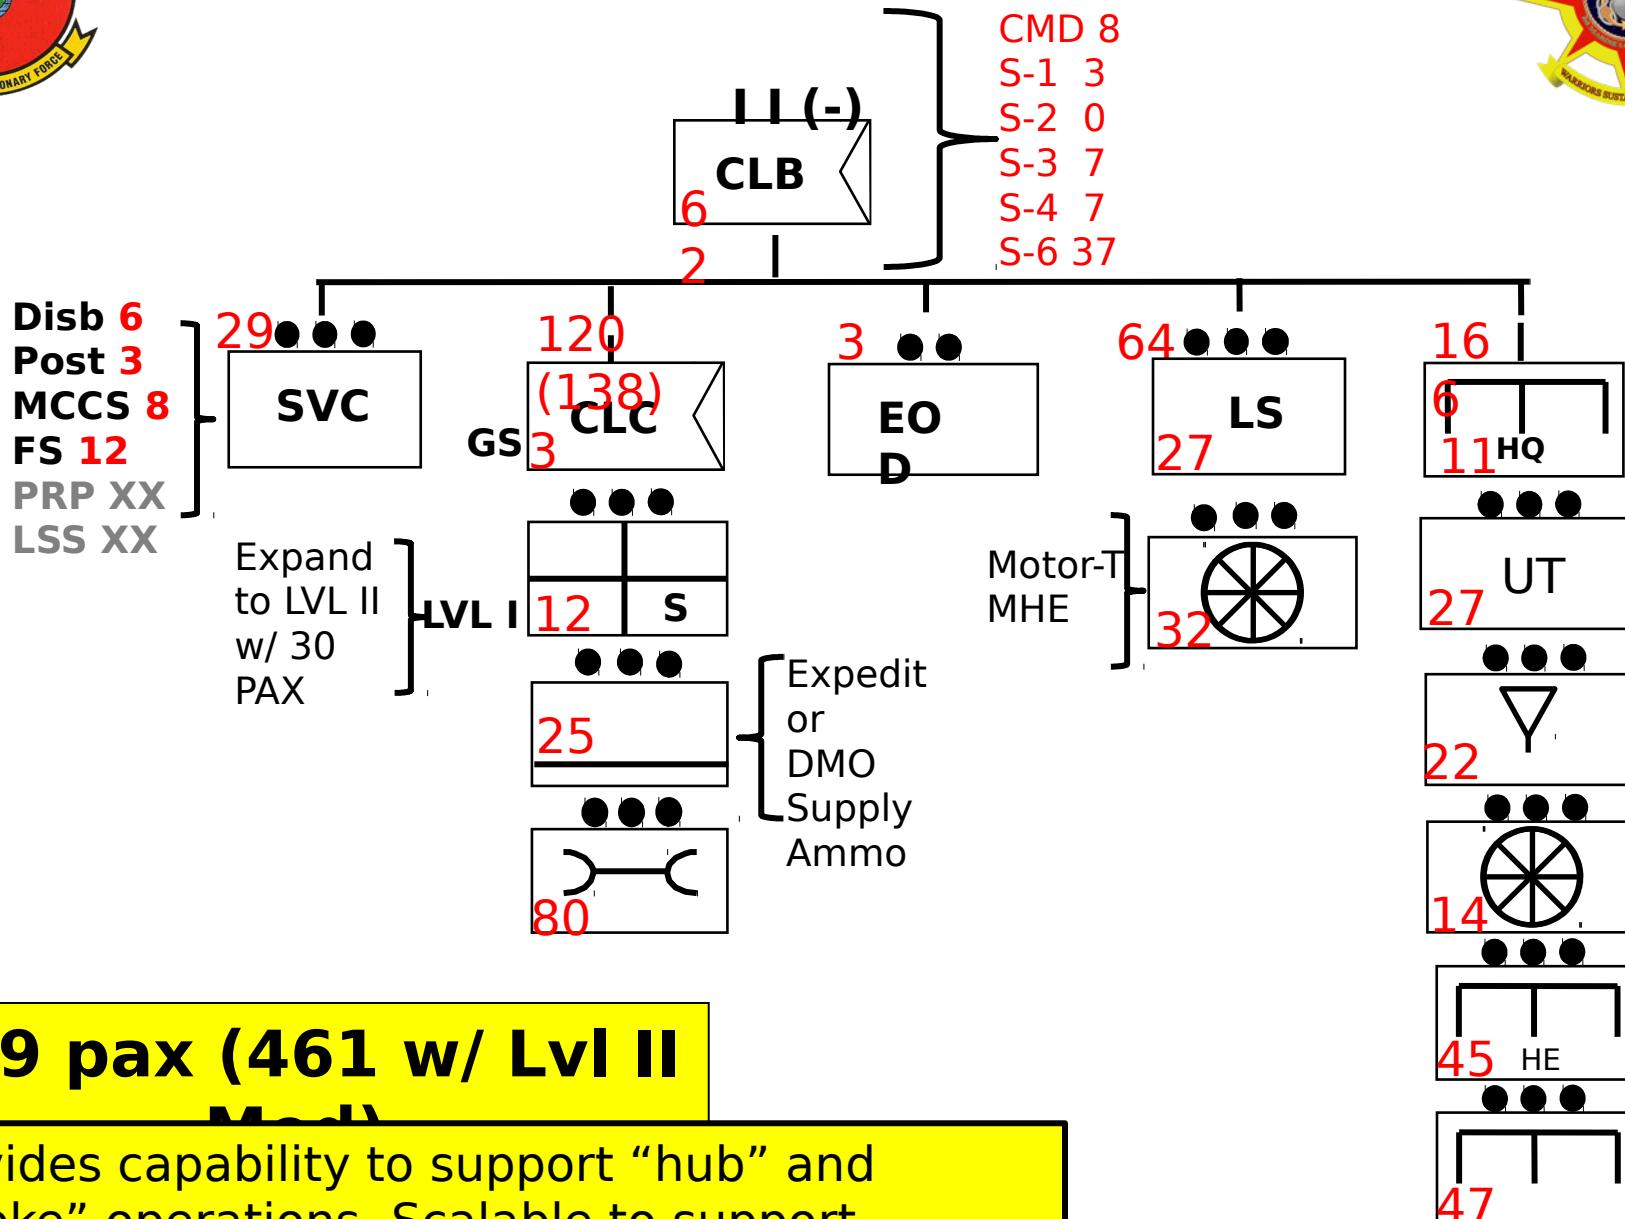

## 2<sup>d</sup> MLG / II MEF Support:

- 2<sup>d</sup> MLG currently provides:
  - Overflow Maintenance support from CLR-25 (standing agreement)
  - Transportation and MHE support through MLG UMCC
- 2d MLG continues to engage directly with MARSOC to continuously reassess their CSS requirements and maintain support.
